

**IF YOU ALREADY HAVE A FACEBOOK ACCOUNT** > Go to Facebook and key in **Sun City Cyclists** in the search box.

Once you are on the page, ask to join the group.

On the Sun City Cyclists group page, ask to join by clicking on the Join box shown in green below.

After you are accepted (and that should occur fairly quickly as anyone already a member can accept you), you are ready to go.

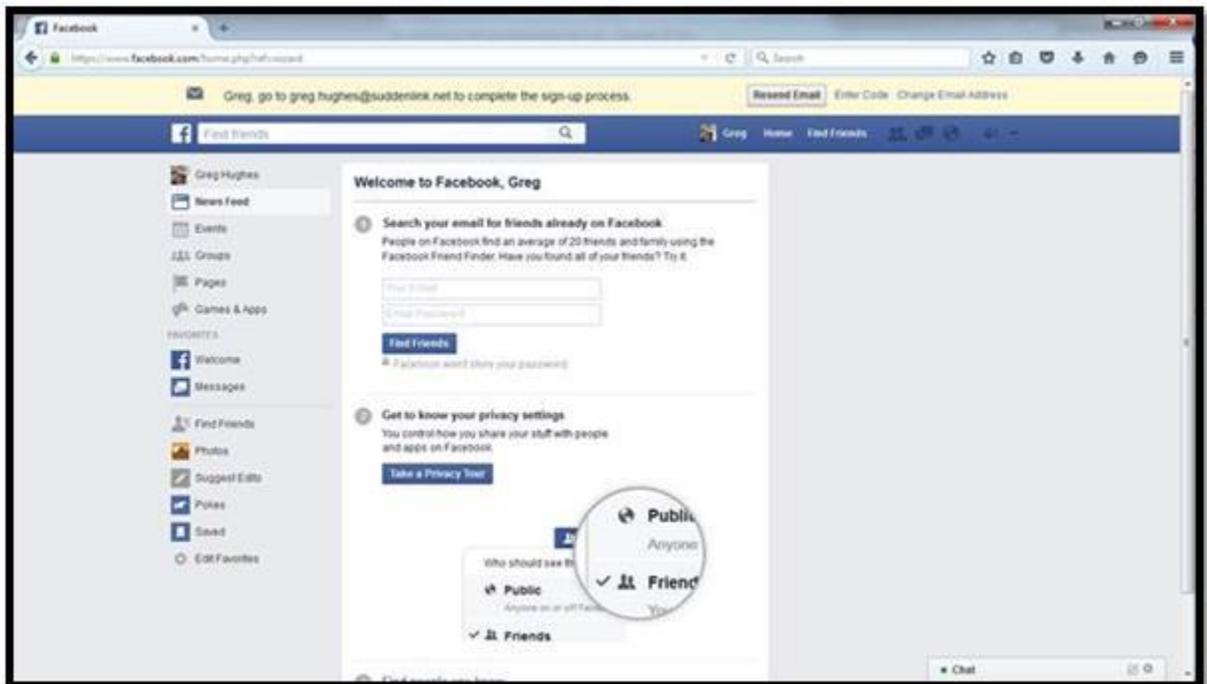

You can post photos or notes to the group, invite others to join or like/comment on other posts. Please post only bike –related information and photos. And as a courtesy to others, please only tag your own name on photos. That way each person can make the decision whether they want to be tagged.

**IF YOU DO NOT ALREADY HAVE A FACEBOOK ACCOUNT** > Using Sun City Cyclists group page is simple, even if you do not already have a Facebook Account.

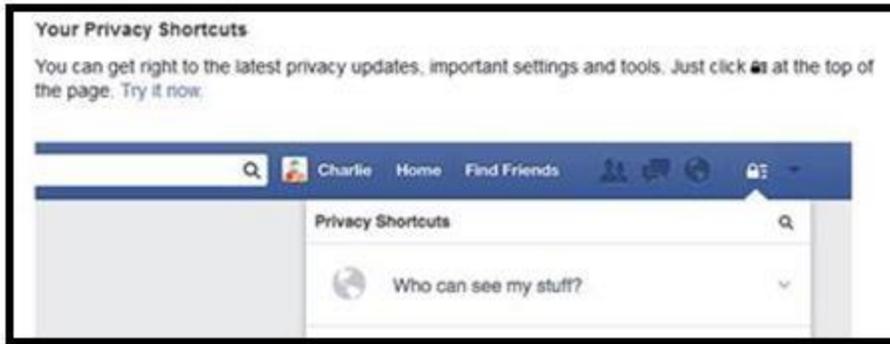

1. To get started, go to [Facebook.com](https://www.facebook.com) to set up an account. You can use minimal information and never gather friends or post on your own account. You could just use the account to view the Sun City Cyclists group information if you want to leave a very light Facebook footprint.
2. You must key in the information shown in the screen shot below. You can use a nickname or shorten your name, but use something that the rest of us will be able to know it's you. For instance, I could use Sharon Re (have to have at least two letters in name). I recommend you use your email address instead of your cell phone number. Use a password you won't forget, but difficult enough others won't be able to guess. And well, your birthday is up to you. Just remember though it may be a security question some day, so make sure you remember what you used for your birthday.

3. On the next page, it will ask you to put in your email address password to send friend requests to all of your email contacts. **Don't do this unless** you want all of your email contacts to know you just joined Facebook and you want to start a full-fledge account. If you do want lots of friends on your page, ok to do this step. Otherwise skip it if you just want minimal footprint.

Likewise, on the Privacy Shortcuts Page, indicate you want only your Facebook Friends to see your posts. That will keep your page private, whether you post anything to your page or not.

4. You can also add a Profile Photo. You don't have to and even if you do, you don't have to post a photo of you...it can be a photo of anyone or anything...your pet, your bike, a chocolate cake, cilantro, etc. You will have a chance to take a short privacy setting tutorial and we recommend that you do. Share only what you want to share. If you keep your information to a minimal, it is likely no one will ever know who you are or find you.
5. You will receive an email from Facebook sent to the email address you provided. Go to your email account and confirm via that FB message
6. Once your account is set up, time to connect to the Sun City Cyclists group page. You can get there by putting Sun City Cyclists in the Facebook search box. Once there ask to join the group (as describe in beginning of these instructions).
